

Dr. (H.C) Low Lay Theng.

Honorary Doctorate in Technology Education

Low Lay Theng, born on July 8, 1975, in Malaysia, has built an impressive career in the field of visual display technology education, demonstrating innovation, excellence, and leadership. Her journey, starting from an academic background in accounting, showcases her adaptability and impact in both the education and technology sectors. Over fifteen years, she has become a key figure in these fields, known for her resilience and knowledge.

Her professional path began at ICT Zone Sdn Bhd, where she worked as a purchaser from 2007 to 2011. In this role, Mrs. Low honed her skills in procurement and financial management, effectively navigating complex market dynamics and ensuring operational efficiency. This experience laid the foundation for her future endeavours and highlighted her financial acumen and ability to thrive under pressure.

Mrs. Low then progressed to a crucial role at Genio Vision Enterprise & Projection Synergy Sdn Bhd, managing accounts receivable and payable from 2011 to 2022. Here, she balanced financial accountability with strategic foresight, crucial for the organisation's financial health and sustainability. Her commitment to financial integrity and transparency was evident, making her an asset to the company.

Her educational background, including a Certificate in Accounting from Polytechnic Kota Bharu, obtained in December 2005, equipped her with essential skills for her roles and fostered a lifelong passion for learning and development. Her expertise in negotiation, financial planning, forecasting, and handling high-pressure environments has been central to her career, underlining her operational excellence and strategic approach.

As the Chief Executive Officer (CEO) at Pro-Vision Academy of Visual Display Technology, Mrs. Low exemplifies visionary leadership. She skilfully blends strategic planning, operational management, and team leadership, fostering an environment of excellence and innovation. Her role involves developing and implementing the Academy's strategic plan, ensuring alignment with the organization's vision and mission, and adapting to industry trends and market demands.

In terms of operational management, Mrs. Low is responsible for overseeing the day-to-day operations of the Academy, focusing on high-quality training courses and services for projector technicians. Her financial oversight includes budget development, financial transaction management, and compliance with regulations, ensuring the academy's financial sustainability.

Her commitment to quality assurance and compliance involves maintaining high standards of training and services, aligning with industry standards and best practices. She also excels in stakeholder management, maintaining strong relationships with industry partners, suppliers, and other stakeholders, and ensuring effective communication.

Mrs. Low is dedicated to her team's professional development, creating a positive, collaborative work environment and providing necessary resources and support. Her business development and marketing skills have expanded the Academy's services and increased revenue. She also

manages facility and equipment to ensure optimal condition and compliance with safety standards.

Her meticulous reporting and documentation skills involve preparing and presenting regular reports to the Board of Directors, maintaining accurate and up-to-date Academy documentation. Additionally, her risk management skills help protect the academy's operations and reputation.

In conclusion, Mrs. Low Lay Theng is an exemplary leader in visual display technology education. Her journey, characterized by resilience, innovation, and excellence, makes her an outstanding candidate for an honorary doctorate degree from the University of Oxford. Her achievements and commitment to advancing the field exemplify her suitability for this prestigious recognition.
